Awareness and Attitudes Regarding COVID-19 Among Clinical Dental Technicians in Albayda, Libya

pharmabiosciencejournal.com - YSE Mansour, NAM Ibrahim... - Pharmaceutical ..., 2020

Despite the availability of prevention guidelines and recommendations on infection management, several dental practices lack the basic awareness of requirements for infection control. This study aimed to assess the amount of awareness, perception, and perspective relating to the coronavirus disease (COVID-19) and infection control among clinical dental technicians. The study population consisted of clinical dental technicians who worked in private clinics, hospitals, and health centers in Albayda, Libya. A questionnaire ...
